Veterinary information made easier.

## Type Aheads Made Easy!

Those long results lists you are getting when using the Type Ahead lookup fields are making you grumpier than a bear woken up early from hibernation.

Finding the drug you want is impossible! But there is an easy way! You can type the beginning of multiple words! For example you need to find Baytril 100

so you type “Baytril” in the drug field and you get ten results. But if you type “bay 100”

you get the one result you are

looking for! If your Delivery Route

is subcutaneous injection and you type

“Injection” you get fifteen results. But

if you type “s.c.” you instantly get only

“Injection, subcutaneous (s.c.)”. There are

many time savers for most of the Type Ahead lookup fields in ZIMS.

**They're counting on you for their medical care. We can help.**

## Type Aheads Made Easy

Treatment Detail

Treatment Item / Drug \*

amo clav 250

- CLAVAMOX 250 (250 mg Solid > Tablet) (Amoxicillin Trihydrate; Clavulanic acid)
- AUGMENTIN 250 SUSPENSION (62.5 mg/ml Liquid > Suspension) (Amoxicillin Trihydrate; Clavulanic acid)
- AUGMENTIN 250 (375 mg Solid > Tablet) (Amoxicillin Trihydrate; Clavulanic acid)
- AMOXICILLIN-CLAV 250MG TABLETS
- CLAVASEPTIN 250MG (250 mg Solid > Tablet) (Amoxicillin Trihydrate; Clavulanic acid)
- RATIO-ACLAVALANATE 250F (62.5 mg/ml Liquid > Suspension) (Amoxicillin Trihydrate; Clavulanic acid) (TEVACAN)
- Synulox (250 mg Solid > Tablet) (Amoxycillin/clavulanic acid)
- Synulox 250mg tablets (250 mg Solid > Tablet) (Amoxicillin-clavulanic acid)
- AUHMENTIN 250 CHEWABLE (312.5 mg Solid > Tablet) (Amoxicillin Trihydrate; Clavulanic acid)
- Clavubactin 250/62.5 (312.5 mg Solid > Tablet) (Amoxicillin Trihydrate; Clavulanic acid)

By typing the beginning of multiple words you can greatly shorten the drop down list to find the drug you are looking for. The list will display the matches that you use most often at the top!

Delivery Route

Injection

- Injection
- Injection, intraarterial
- Injection, intracardiac
- Injection, intramuscular (i.m.)
- Injection, intravenous (i.v.)
- Injection, epidural
- Injection, intraarticular
- Injection, coelomic cavity
- Injection, thoracic cavity
- Injection, abdominal or peritoneal cavity (i...
- Injection, intradermal (i.d.)
- Injection, rumen
- Injection, intraosseous
- Injection, subconjunctival
- Injection, subcutaneous (s.c.)

Type "Injection" into the Delivery Route and you get many results. But type "i.m." (be sure to include the periods) and you get intramuscular right away! Remember you can scroll the list by using keyboard arrow buttons.

Delivery Route

i.m.

- Injection, intramuscular (i.m.)
