

**Q:** Vet Day got you crazy busy? Your consulting veterinarian left you with printouts of all the cases to enter into ZIMS. You thought you were done but find a page with weights, measurements and transponders that need to be entered on the records you were just in!

**A:** The ZIMS Statistics dashboard will help you out by locating your Recent Animal records as well as your Recent Searches! You finish your post-vet-day data entry in record time!

*Many thanks to Jayne Hardwick at Central Florida Zoo, who submitted this tip!*
