
Animals-Adding Development Milestones

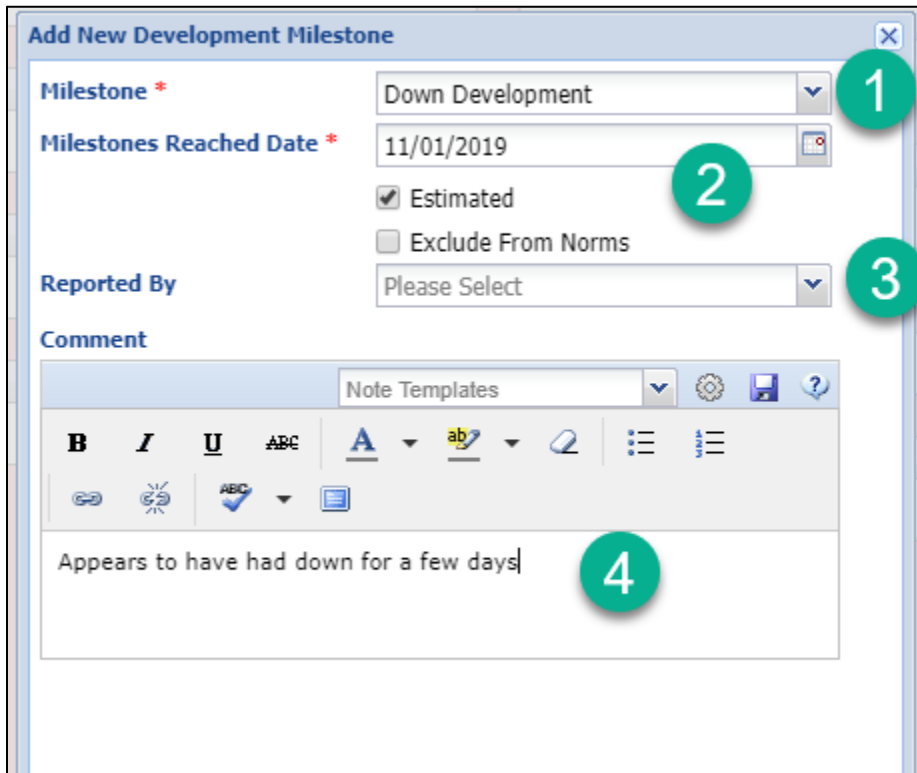

How to add developmental milestones to an animal record in ZIMS

[Contact Species360 Support](#)

Development Milestones are stages in an animal's life. There is one date associated with them and then they move on to another. For example, a bird might have the following milestones:

- Down development
- Feathered fully
- Fledge
- First molt
- Egg lay

Development Milestones are found under the More Details tab in the animal record.
Select Actions > Add New.

The screenshot shows a web form titled "Add New Development Milestone". It contains the following fields and options:

- Milestone ***: A dropdown menu with "Down Development" selected. A green circle with the number "1" is next to it.
- Milestones Reached Date ***: A date input field with "11/01/2019" and a calendar icon. A green circle with the number "2" is next to it.
- Estimated**
- Exclude From Norms**
- Reported By**: A dropdown menu with "Please Select". A green circle with the number "3" is next to it.
- Comment**: A rich text editor with a toolbar (bold, italic, underline, text color, background color, link, unlink, list, indent, outdent) and a text area containing "Appears to have had down for a few days". A green circle with the number "4" is next to the text area.

1. Select the Milestone from the dropdown list. These lists are filtered by taxonomy, so a cheetah will not have the option to “fledge”.
2. Record the Date which can be estimated or excluded from norms. Although there are currently no global resources that capture Development Milestones, it is hoped to be developed in the future.
3. Reported By is useful if there are questions
4. Use the Comment box to provide any additional information

The milestones will display in the grid.

It is the mission of Species360 to facilitate international collaboration in the collection and sharing of information on animals and their environments for zoos, aquariums and related organizations.

| Development Milestones | | | | |
|---|--------------|------------------|-----------|--------------------|
| | Reached Date | Milestone | Estimated | Exclude From Norms |
|  | 01/21/2020 | Egg Lay | ✘ | ✘ |
|  | 12/04/2019 | Fledge | ✘ | ✘ |
|  | 11/01/2019 | Down Development | ✔ | ✘ |
