## **Animal Training Definitions Search**

How to find Training routines/definitions your institution has created.

## Contact SPECIES360 Support

Your Training definitions search is found at the bottom of the expandable left hand search box in the Animals module. You can search by Name, Created By or both. If you leave both filters blank you will get a results grid of all your Training routines.

Animal Enrichment Item Search						

Selecting the Animal Count number will open a results grid for the records that have that Training definition assigned to them. Animal Training Search is also where you will find the Add New Training Definition tab and the options to Edit or Delete a Training Definition.

It is the mission of Species360 to facilitate international collaboration in the collection and sharing of information on animals and their environments for zoos, aquariums and related organizations.
