Weight Sharing Rules

Medical Weight Entries and how they Display in ZIMS Animal Husbandry Screens
Contact Species360 Support

module	Single animal (Actual weight)		Single animal (Estimated weight)		Multiple animals	
	Medical	Husbandry	Medical	Husbandry	Medical	Husbandry
Anesthesia	Show/edit	Show*/no edit	Show/edit	Show*/no edit	NA	NA
Prescription	Show/edit	Show*/no edit	Show/edit	No Show	Show/edit	Not shown

*=If multiple weights are recorded on the same day only one weight will display in the husbandry grid

Pathology organ weights do not display in the husbandry grid.

If "Display medical weights in animal husbandry record" in Institution Preferences is off, no Medical weights will display in Husbandry

If the same weight has been recorded for the same date in the Medical module as was recorded in the Husbandry modules, the Medical weight will be hidden.

Revised 23 May 2018
* Species360 Organizational name change added on 07/18/2016
