

## Looking for Physiological Reference Intervals?

They have been upgraded!

[Contact Species360 Support](#)

Dr. Teare has taken his legacy project to the next level with Expected Test Results. This is his latest installation of global medical resources available in ZIMS and accompanies Anesthesia summaries, Drug Usage Extracts, and Morbidity and Mortality Analysis. All global medical resources were funded with support from the Institute of Museum and Library Sciences (IMLS).

The menu items for global medical resources has changed slightly, go see for yourself! [Full details on Expected Test Results can be found here](#)
