
Viewing/Printing ZIMS Reports in PDF with extended characters

[Arial Unicode MS font, for Institutions with report PDF problems](#)

[Contact Species360 Support](#)

[Enabling extended character support](#)

If you have enabled extended character support in ZIMS (see link above) you may need to install Arial Unicode MS font to see ZIMS reports in PDF format, if it is not already on your system. If you need help downloading the Arial Unicode MS font, please contact support@Species360.org.

Revised 10 August 2017

** Species360 Organizational name change added on 07/18/2016*
