

Animals - Major Life Event

Viewing an animal's major life events

[Contact SPECIES360 Support](#)

The screenshot shows the SPECIES360 interface. On the left is a sidebar with various icons for navigation, including 'Animals'. The main window displays the 'Animals' section for a specific animal, 'GAN: 6676062/Aepyceros melampus rendilis'. The 'Major Life Event' tab is selected, showing a table of events. A red arrow points from the 'Animals' icon in the sidebar to the 'Major Life Event' tab.

Date	Major Life Event	Details
26/Mar/2012	Parent Update	Sire: 19789174
26/Mar/2012	Parent Update	Dam: 23009807
24/Mar/2012	Parent Update	Dam: 23009807
24/Mar/2012	Parent Update	Sire: 19789174
09/Oct/2011	Moved to a Different Enclosure 6676...	~
01/Jun/2011	Moved to a Different Enclosure 6676...	~
02/Oct/2010	Moved to a Different Enclosure 6676...	~

31/Jul/2010	Moved to a Different Enclosure 6676...	~
06/Apr/1999	Acquisition: From Another Institution	Purchase From (Physical and Ownership): Send
06/Apr/1999	Sex Type Update	Changed to Female
03/Apr/1999	Disposition: To Another Institution	Sale (Physical and Ownership): Binder Park Zoo
22/Aug/1998	Sex Type Update	Changed to Female
22/Aug/1998	Acquisition: Birth/Hatch	~

The Major Life Events tab allows you to see several types of events, including parent updates, enclosure moves, accessions, dispositions, sex type updates, life stage updates, etc. You can sometimes get to more details about some of these events (e.g. notice

It is the mission of Species360 to facilitate international collaboration in the collection and sharing of information on animals and their environments for zoos, aquariums and related organizations.

above that you could go to the Sire or Dam's record from here), but in general this tab is informational only and sourced from other data entry screens.
