Not all animal transfers in ZIMS are straight forward. Here are six different transfer scenarios for individual animal transfers, and which terms to use to complete them in ZIMS.

For some background reading on transactions, please visit the [transactions](#) section within the [Animal Management Index](#).

Scenarios:

Scenario 1 - Skeeter the giraffe was owned and held by Zoo A. He was donated to Zoo B.

Scenario 2 - Skeeter the giraffe was owned and held by Zoo A. He was sent on loan to Zoo B.

Scenario 3 - Skeeter the giraffe was owned by Zoo A and held by Zoo B. He was physically transferred from Zoo B to Zoo C, and still owned by Zoo A.

Scenario 4 - Skeeter the giraffe was owned by Zoo A and held by Zoo B. He was physically transferred from Zoo B to Zoo C, and Zoo A donated the ownership to Zoo C.

Scenario 5 - Skeeter the giraffe was owned by Zoo A and held by Zoo B. Ownership was transferred to Zoo C, but he physically remained at Zoo B.

Scenario 6 - Skeeter the giraffe was owned and held by Zoo A. Ownership was transferred to Zoo C, and he was physically transferred to Zoo B.

Scenario 1

Skeeter the giraffe was owned and held by Zoo A. He was donated to Zoo B.

Here's how to enter your transactions:

Zoo A: Enters a 'Disposition - To Another Institution' transaction (or accepts the pending transaction) with '**Donation to (Physical and Ownership)**' as the terms.

Zoo B: Enters an 'Acquisition - From Another Institution' transaction (or accepts the pending transaction) with '**Donation from (Physical and Ownership)**' as the terms.
